### Release Note Details

- **Note:** Patch 28943 is for 2018.00, patch 29155 is for 2019.00
- This patch adds an additional option to the **Select Formula A Reporting Categories** screen to allow the user to select how they wish to split payments for leave and absences into included and excluded amounts for the Formula A calculation.
- **Important:** It is highly recommended that the reporting options are reviewed and updated if necessary after installing this patch in order to ensure that the desired results are produced for your particular needs.
- The options available are as follows:
  - 0 (Include All) Do not split leave/absence payments. The entire amount will be included
  - 1 (Exclude Penalty) Include payment for base hours only. Any payment for hours worked beyond this will be excluded
  - 2 (Split Penalty) Base + Normal component of penalty hours. Any payment made at a penalty rate will be split into a normal time component (included) and a penalty time component (excluded)
- [LSL LEVY ADVICE REPORT \(NEW\)](#)

## Setup Details

The new option for selecting the split method for leave and absence payments is located on the **Select Formula A Reporting Categories** screen, accessed by pressing **ENTER** in the **Reporting Categories A** field of the main reporting options screen, as shown here:
