

4. Plant Maintenance Module - 2019

Pulse Maintenance

The Release Notes listed below are provided for each major release and service pack. They contain details of all enhancements, corrections and client specific changes since the previous release notes were issued.

To see the full details of the changes applicable to your system you will need to read **ALL** sets of Release Notes (including service packs) that have been released since your system was last updated.

These Release Notes may include changes relating to Hotfixes already deployed to your current Live system.

The documents listed below are the consolidated set of release notes for each release and/or service pack. To view the individual release notes or test plans, you will need to navigate to the specific release and click on the Individual Release Note link for the relevant module.

**The tools to manage
and align your
operational assets
with your strategic
direction.**
